## Introduction

It's important to complete the **full budget** as accurately as possible because it'll help you see:

- what money you have coming in;
- what money you need to pay your essential bills; and
- what money you have left over to pay your debts.

## Monthly budget

The budget asks for monthly figures. If any of your income or outgoings are paid weekly, fortnightly or four-weekly, you'll need to change them to monthly figures. Making sure that all your figures are monthly will help you to create an accurate budget. Use these instructions to change your figures to monthly. You may find it helpful to do your calculations on a separate sheet of paper, or photocopy the budget so you can complete a first draft. This will give you the opportunity to look over your figures and check that you've covered all of your income and outgoings.

### Instructions

#### To change weekly to monthly figures

Weekly figure x 52 (weeks) divided by 12 (months)

#### To change fortnightly to monthly figures

Fortnightly figure x 26 (payments) divided by 12 (months)

#### To change four-weekly to monthly figures

Four-weekly x 13 (payments) divided by 12 (months)

## Get advice

Useful tips are included in some sections of the budget to help you complete it. If you need extra help or want to discuss your situation, get advice from a money adviser. To find a free money adviser, use the Money Advice Service's Debt Advice Locator. Go to [moneyadviceservice.org.uk/debt-advice-locator](https://moneyadviceservice.org.uk/debt-advice-locator) or call **0800 138 7777**.

If you have a money adviser, you can also use this space to list any questions that you want to discuss with them.
